

# New York State Constitutional Convention

## Here is what you should know.

**What is a constitutional convention?** The New York State Constitutional Convention is a meeting of 3 delegates from each of our 63 Senate districts, plus 15 at large delegates. They convene in Albany and have the ability to amend any part of the state's constitution. Any changes agreed to by the majority of the delegates will then go to the public for approval.

**When would it take place?** On November 7, 2017, New York State voters will have the opportunity to vote on a referendum on whether they would like a constitutional convention to be held. If the referendum passes, a constitutional Convention will be held in April 2019.

The last New York State Constitutional Convention was held in 1967. The last vote for a convention was held in 1997 and 62% of New Yorkers said NO.

**Why is this important?** The convention could result in a minor tweaks or radical changes. Since CSEA members and retirees rely upon the state's constitution to protect our pensions, our right to organize, and the nature of our work, we could all face major setbacks and see our futures jeopardized.

**Who will be affected?** All New Yorkers. A convention is costly and puts power in the hands of a selected few. As CSEA members and retirees, the civil service laws that dictate our terms of employment and service are protected by the state constitution. The very basis of what we do and how we do it could be decided by political insiders.

**What's at stake?** Everything is at stake. Our state pensions, our right to organize and collective bargaining, civil service appointments, public education and environmental standard are among the many hard fought protections that we stand to lose.

The 1967 New York State Constitutional Convention cost tax payers roughly \$6.5 million. In 2015 numbers, that's over \$46 million!

**How can we change the constitution without a convention?** It's easy. Bills can be passed through the state legislature to propose as a questions on a ballot during general elections. Our constitution has been amended over 200 times in this way since 1894, and a number of ballot questions were voted on as recently as 2015.

**How can I get involved?** Talk to your friends and family about how a constitutional convention could affect them.

Call your state legislators and tell them there are better ways to make changes in New York.

# New York State Constitutional Convention

## FAQs:

### What is a Constitutional Convention?

- Every 20yrs, New Yorkers are asked, *“Shall there be a convention to revise the constitution and amend the same?”*
- *If the majority votes yes, 204 elected delegates from across NYS will gather to propose changes to any aspect of NYS’s constitution.*

### Can I be a delegate?

- Sure! But only if you are very wealthy and extremely connected.

### When is this taking place?

- On November 7, 2017, voters in NY will have the chance to vote *yes* or *no* to a constitutional convention.
- If the majority of voters agree to the convention, we then vote on the delegates in 2018. A convention would then be convened on April 2, 2019.
- New Yorkers would vote to ratify proposed amendments in November 2019.

### Why should I care?

- If we have a constitutional convention, everything in our constitution is up for grabs. **EVERYTHING**-including protections of **pensions, civil service law, unemployment insurance, workers compensation and the environment.**
- It’s also incredibly expensive. It is estimated that a convention would **taxpayers at least 47 million.** Instead, that money could be used for services and infrastructure across the state.
- **Remember-they’re not going to put in more protection for us, they will only take them away.**

### How do I stop this?

- On November 7, 2017, **VOTE NO for a constitutional convention.**
- Tell your family and friends to vote no!
